

SASTA – Annual General Body Meeting, May 16, 2021

There was a presentation of the proposed By-laws by the new chair Mr Murali Nair., which have been posted on the Temple website for the past 30 days. These included codifying hiring and firing practices, flexibility of extending the term of high-performing office bearers by allowing them to contest in the elections for a third consecutive term, A permanent section has been created with salient points like not allowing any additional idols to the second floor of the Temple, not removing any Inauguration/Donor plaques that are in place and other laws that would strengthen the existing By Laws. The By-law amendments were passed, subject to rephrasing certain statements.
